Master Tanning, Inc.
4905 Hwy. 70 East
New Bern, NC 28562

or conveniently order with your credit card.
FAX #: 252-634-2221

2. Bank wires may be sent directly to Master Tanning, Inc.'s bank.
Call for details.
3. We reserve the right to hold company or personal checks for 10 business days before releasing shipment.

Shipping

1. We ground ship the best possible way for your order and location.
2. All freight will be shipped prepaid unless prior arrangements are made.
3. Prepaid orders will be shipped within 36 hours (based on availability) excluding weekends and holidays.
4. Air freight is available upon request.
5. Damaged orders must be reported within 4 business days of delivery.

Notice

1. All sales are final. A cancelled order is subject to a 20% processing fee. Shipping and handling fees will be paid by the customer.
2. We reserve the right to change prices and product design at any time.
3. Any duplication or reproduction of this catalog without the expressed written consent of Master Tanning, Inc. is prohibited.

Personal Finance Information

Easy Monthly Payments! If you have a Visa, MasterCard, Discover or American Express credit card, you may qualify for up to \$7,500 of buying power. Payments are as low as 2% of the outstanding balance. Find out how fast and easy it is by calling your Master Tanning, Inc. representative today. Please Note: Lamps and items purchased for resale do not qualify for credit.

Service

Since Master Tanning, Inc. has been distributing tanning equipment nationwide for over 21 years, our Technical Service staff and knowledge is second to none. Now, there are three ways to get the information you need about your tanning equipment.

- The extensive online support allows you to see step-by-step troubleshooting, part numbers, manuals, wiring schematics and more. Visit www.tanning-bed-parts.com
- You can also contact the Technical Support Team at 1.800.552.4446.
- In the unlikely event that you may need to have your tanning equipment serviced, the Master Tanning, Inc. Service Network provides you with the most professional, quality service technicians in the country.

Important Note

Important Power Requirements For Tanning Equipment:

Today's 220-volt equipment is extremely sensitive! Since electrical voltages vary from place to place, the output and life of tanning lamps can be affected. For equipment to operate properly and to make it last longer, we may suggest installation of a buck booster transformer to adjust the electrical voltage. Please see the electrical requirements for your equipment on the earlier pages located at the top of the feature list. If you have any questions, please don't hesitate to call your sales representative.

DANGER: Equipment advertised herein emit ultraviolet radiation. Follow usage instructions listed on the device. Avoid overexposure. As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. **WEAR PROTECTIVE EYEWEAR; FAILURE TO DO SO MAY RESULT IN SEVERE BURNS OR LONG TERM INJURY TO EYES.** Medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult physician before using any tanning equipment if you are using any medications or have a history of skin problems or you are or believe yourself to be especially sensitive to sunlight. If you do not tan in the sun, you are unlikely to tan from the use of tanning equipment. Before use, review the recommended exposure position, exposure schedule and certified lamp type(s) described on the labeling of each device. Read the warning label and instructions on any tanning equipment advertised herein that you purchase.
